Hacks for clash of clans android

1 Understand that it is impossible to hack Clash of Clans. While countless websites and YouTube videos claim to have a one-stop solution for hacking Clash of Clans, the reality of the situation is that the game cannot be hacked. [1] Even if it were possible, invading a clash between clans (or an online game, for that matter) would be very illegal. Since Clash of Clans resources can be purchased with real money, hacking would amount to theft, which can result in serious fines or jail time. Don't be fooled by comments on videos or sites that promote hacking. These comments are usually made by fake accounts to encourage others to try the hack. 2 Know the consequences of an attempt to hack. Any service that claims to help hack Clash of Clans is, at best, misleading; in many cases, these services are also scams that can steal your information or download viruses on your computer or Android. [2] Attempting to hack Clash of Clans using a service is all but guaranteed to cause problems, whether it's because of malware or your account being reported for violating the Terms of Service. At best, attempting to hack Clash of Clans simply wastes your time. 3 Be patient. Clash of Clans is as much about the journey as it is about the end result. While grinding for resources may seem boring or boring, the pay-off is always worth the wait. 4 Avoid spending your startup gems. Clash of Clans starts you off with a large sum of gems; While you have to spend about half of them to finish the tutorial, you'll be left with the remaining gems. It can be tempting to blow these gems on as many items as possible, but remembering to be frugal is a great way to start your game on the right foot. [3] Gemstones should also not be used to buy resources or reduce construction times. Again, patience is your friend when attempting to build up your gem inventory. 5 Earn Clash of Clans performance. Performance is perhaps the most lucrative way you earn gems, as unlocking all three layers of each achievement awards you around \$100 worth of gems. You list the Clash of Clans achievements and their demands here. Just connecting Clash of Clans to the Google Play Store will net you 50 gems. Once you've unlocked a performance, add your current level in the upper-left corner of the screen, and then tap Claim Rewards next to the performance, the reward savings are added to your inventory. 6 Remove obstacles where possible. Remove an obstacle, such as a tree or rock, by tapping it and then confirming the choice. This will give you different amounts of gemstones ranging from 0 to 6. Some obstacles, such as trees, will respawn every 8 hours. Rocks don't respawn, consider removing them after removing an obstacle for which you received 0 gems. This will almost always ensure that you receive at least 1 gem for removing the rocks. 7 Build and upgrade the Gem Mine. Pouring elixirs into the construction of the Gem Mine may seem like a one way to spend your hard-earned resources, but the Gem Mine will automatically reward you with at least 2 gems per day, regardless of whether you play or not. [4] You need to pick up your gems periodically, depending on the level of the Gem Mine. For example, a level 1 Gem Mine can hold a maximum of 10 gemstones before it will stop producing them. Retrieving your gems will be the Gem Mine to resume production. At the highest level, the Gem Mine can store up to 18 gems. 8 Use Google Opinion Rewards. Google Opinion Rewards is an Android app that lets you fill out small surveys to earn anywhere between \$0.10 and \$1.00. Completing enough surveys will give you the money needed to buy more gems. This is not a hack, but it is a relatively quick way to earn a small, available amount of money that will make you feel comfortable buying gems. Google Opinion Rewards can be downloaded for free from the Google Play Store.
